

## **C.R.I. Pumps Private Limited Honored with Prestigious EEPC National Award for Export Excellence**

*New Delhi, February 18, 2025* – C.R.I. Pumps Private Limited, a prominent player in fluid management solutions has been conferred the prestigious Engineering Export Promotion Council (EEPC) National Award for Export Excellence in the "Large Industry" category for the FY 2022. This accolade underscores the company's remarkable contributions to India's engineering export sector and its unwavering commitment to innovation and quality.

The award was received by Ms. Sahithya Soundararajan, Executive Director of C.R.I. Pumps Private Limited, and was presented by Shri Jitin Prasad, Hon'ble Minister of State for Commerce and Industry, Government of India.

Reflecting on this momentous achievement, Ms. Sahithya Soundararajan remarked, *"At C.R.I., we are deeply committed to delivering state-of-the-art pumping solutions that cater to the evolving needs of our customers across various sectors, including Industrial, Commercial Buildings, Wastewater management, municipal water supply, solar, Irrigation, and residential markets worldwide. Our strategic Investments in research and development, advanced manufacturing processes, and automation exemplifies our relentless pursuit of excellence, ensuring that every product we create meets the most stringent global standards. By championing the 'Made in India' initiative, we not only bolster our export capabilities but also proudly showcase India's engineering prowess on the global stage."*

C.R.I. Pumps has consistently excelled in domestic and international markets, executing high-impact projects such as supplying high-capacity split case pump sets and vertical turbine pumps for water supply initiatives in Africa, irrigation projects in East Asia, and wastewater management systems in Europe. These achievements underscore its ability to deliver robust, efficient, and sustainable pumping solutions for diverse global needs.

In a significant milestone, C.R.I. Pumps has been empanelled by the Maharashtra State Electricity Distribution Company Limited (MSEDCL) to supply 25,000 solar pumping systems under the Magel Tyala Saur Krishi Pump (MTSKP) scheme, a ₹754 crore project, reinforcing its leadership in renewable energy solutions.

The company's commitment to sustainability is evident through its eight-time recognition with the National Energy Conservation (NEC) Award from the Government of India. With over 170,000 solar pumping systems and IoT-enabled smart pumps installed globally, C.R.I. has achieved an estimated energy savings of 5,200 million kWh and reduced carbon emissions by 4.13 million tonnes, solidifying its role as a pioneer in energy conservation and environmental stewardship.

### **About the company**

C.R.I. Pumps rank high among the world's fastest-growing fluid management solution providers, with an expansive presence across 120 countries, including 10 international subsidiaries, 30,000 outlets, and 1,500 service centers. The company offers an extensive portfolio of more than 9,000 products, ranging from pumps and motors to IoT-driven solutions, solar pumping systems, pipes, wires, and cables. Renowned for its 100% stainless steel pumps, C.R.I. serves a diverse range of industries, including mining, water and wastewater management, solar, irrigation, and residential applications.

C.R.I. operates state-of-the-art manufacturing facilities that are ISO 9001 and ISO 14001 certified and holds international certifications such as CE, UL, CSA, NSF, RCM, and IEC.

In addition to its industrial prowess, C.R.I. is committed to corporate social responsibility, supporting various community initiatives. These include adopting government schools, infrastructure development, providing clean drinking water, improving sanitation and healthcare, promoting sports, and fostering sustainable agriculture.
